SCHOOL VALUES

RESPECT

Of oneself, others and of learning are displayed through honesty, integrity, consideration and the celebration of diversity in a safe and inclusive environment. We teach students to have due regard for the opinions, feelings, wishes and rights of others.

PURSUIT OF EXCELLENCE

Students are supported to reach their full potential by developing wide-ranging skills and capabilities and show growth academically, personally and socially. We value and celebrate effort and achievement. We motivate students to do their best, at whatever level that may be, by nurturing a culture of striving for excellence which in turn opens up the pathways to success.

CITIZENSHIP

Students are encouraged to become active and informed citizens through their participation at a local, national and global level. We teach students the skills and knowledge to understand and engage with the world they live in.

This is demonstrated through involvement in the rich opportunities within the school and wider communities. Students are supported to take increasing responsibility for their own learning, their relationships with others and their participation in all aspects of their school life.
